SENATOR CLARK: In order to answer Senator Duis, Senator Bereuter's bill was not killed at the time that this came to the floor. Otherwise it would have probably been amended in committee. I agree with the amendments. There is nothing wrong with the amendment. This is not really a budget bill anyway, but it does affect the budget. I won't talk on the bill yet, I'll wait until you get the amendment up. I would move for the amendment.

SENATOR DWORAK: Mr. Speaker and colleagues, Mr. President and colleagues. I think we hit upon this issue the other day of trying to enact legislation through a budget bill. I checked over the noon hour and find out that the existing provisions of collecting the use tax from the cities and going into a cash fund to the tax department is provided for under existing legislation.
